Assembly Technician

Are you an assembly technician with a desire to work in a light manufacturing setting which allows you to join in a variety of tasks, lending skills and providing expertise as needed? Jump in and join Data I/O!

Data I/O Corporation is the world's leading provider of device programming systems and solutions for global manufacturers of automotive, medical and industrial electronic products. Many of our customers are leading the electric vehicle revolution and rely on Data I/O to keep their production lines running smoothly and our solutions help bring products we use every day to life.

Technicians at Data I/O are responsible for many different parts of the assembly process and actively contribute to ensuring the manufacturing floor is running most efficiently. **This is a contract-to-hire position.**

You will need…

- High School Diploma or GED, technical degree in related field, preferred
- Excellent hand/eye coordination
- Ability to lift 50 lbs
- Technical knowledge and ability to read blueprints, drawings, etc.
- Ability to use assembly tools (i.e., crimpers, clamps, most hand tools)
- Basic computer skills
- Basic understanding of quality control principles and/or experience working in LEAN manufacturing environments
- Ability to communicate clearly and professionally both verbally and in writing, including effective use of listening skills

We offer…

- A small, rewarding, challenging and fast-paced environment
- Convenient Redmond location with free parking
- Flexible scheduling

Job Types: Full-time, Contract w/possibility of hire

Pay: From $22.00 per hour

Data I/O Corporation is an Equal Opportunity Employer
