

Production Supervisor

Are you experienced and knowledgeable in manufacturing operations and processes, especially assembly and planning? Do you enjoy leading others and have experience in a supervisory role? Do you have a jump-in attitude and the interest in working for a global, public organization with a small company culture? If so, Data I/O could be the place for you!

Headquartered in Redmond, Washington, but a global company with subsidiary offices in Munich, Germany and Shanghai, China, Data I/O is the world's leading provider of device programming systems and solutions for semiconductor devices.

We are currently seeking a full-time Production Supervisor to manage and oversee production floor functions such as assembly, test and shipping/receiving, ensuring sales demand is met with quality products. In this position, you will also be responsible for managing the planning and build schedules, directing the work on the floor as appropriate and necessary in order to achieve on-time deliver and maintain desired inventory levels.

Minimum Requirements:

- Bachelors degree in business, management or related field
- Minimum 5 years working on assembly or manufacturing floor, with a multi-national company a plus
- Minimum 3 years experience in a supervisory role
- General knowledge of mechanical assembly and electrical concepts
- Experience with ISO9001:2015 quality standards or other quality certifications
- Experience with, and strong understanding of the use of, an ERP system for material resource planning and other floor manufacturing activity, IFS and/or SFDC a plus
- Proficient in MS Office, Power BI a plus
- Ability to effectively manage multiple projects, maintain schedules and allocate resources
- Strong communication skills and ability to work cross-functionally with finance, sales, service and engineering.
- Lean/Six Sigma Certification (SME, ASQ or other recognized certified body)
- APICS certification, a plus
